

Motley Fool Current Weather Web Site

User Manual

Mike Gilbert

Here is the initial screen.

The screenshot shows a web browser window with the address bar displaying 'localhost:60534'. The browser's tab bar includes 'Techspande', 'Miami Zip Co', 'forecast.wea', 'Label Class', 'ASP.NET MV', 'ASP.NET MV', and 'Start - Fool V'. The browser's bookmark bar lists 'Apps', 'OptCalc', 'StockCharts', 'GB1', 'MFO Opt', 'Options Tax', 'BigCharts', 'MSN Quote', 'Fool Top', 'Ting', and 'Other bookmarks'. The application's navigation bar contains 'Fool Weather', 'About', and 'Contact'. The main content area features the instruction 'Enter an Address or press "Get My Location". Then press "Current Weather".' followed by a horizontal line. Below this, there is a form with two rows. The first row has a label 'Address (City, State or Zip Code)' followed by an empty text input field and a 'Current Weather' button. The second row has labels 'Latitude' and 'Longitude' each followed by an empty text input field, and a 'Get My Location' button. At the bottom of the page, the copyright notice '© 2014 - Fool Weather Application' is displayed.

Press Get My Location. There might be a browser warning about the site using your location info. After the Latitude and Longitude are displayed, you can press the Current Weather button.

This screenshot shows the same web browser window as the previous one, but with the 'Get My Location' button pressed. The 'Latitude' text input field now contains the value '42.026818399999996' and the 'Longitude' text input field contains the value '-87.68629039999999'. The 'Get My Location' button is now disabled. The 'Current Weather' button remains enabled. All other elements of the page, including the browser tabs, bookmarks, and navigation bar, are identical to the previous screenshot.

Weather based on the location is displayed along with a map The picture changes based on the current temperature.

This is the About page, with links to all the code snippets, query strings and weather information that I needed. The links should open in a new tab or window, depending on your browser settings.

Here is the contact page. The Resume Download requires an HTML5 compatible browser. If not, it will display in an Acrobat Reader window where the user can Save the document.
